

HAZARDOUS WASTE in SCHOOLS

Bridging your environmental needs.

arch environmental group provides comprehensive regulated waste management programs to the education system. Our staff of professional waste management consultants has assisted numerous school districts throughout Michigan with the implementation of environmental policies and procedures designed to comply with federal, state, and local hazardous waste regulations. These services include:

Lab Packs

High school and middle school science laboratories often house chemistry lab chemicals, biological specimens, radioactive materials and mercury-containing equipment. Often these laboratories have dangerous chemicals, expired chemicals and hazardous storage issues. arch environmental group is available to handle all your laboratory safety issues.

Hazardous & Universal Wastes

arch environmental group is a fully licensed hazardous waste transportation firm with HAZWOPER trained and CHMM certified personnel. School buildings often have hazardous waste materials requiring proper handling and disposal. When not classified as hazardous, many materials require disposal under the "Universal Waste" rules. These includes items such as fluorescent lamps, batteries, electronic equipment (below) and more.

Biohazardous (Medical) Waste

arch environmental group has specialized programs for proper handling and disposal of your healthcare medical waste. We can provide you with necessary disposal materials, program development and quarterly medical waste pick-ups.

E-Waste

Electronics such as computers, TV's and telephones may contain toxic metals at hazardous concentrations. With continuous updates to school district technology, it has become necessary for the proper handling and disposal of these materials under the regulations.

Emergency Response

arch environmental group is always prepared to handle your emergency response –24 hours a day, 7 days a week. Everyday school emergencies are enough to handle, let arch handle your:

- Chemical Spills
- Mercury Spills
- Biohazard Spills

Facility Audits

arch environmental group is pleased to offer complimentary hazardous waste and universal waste management audit of your educational facility, including your Operations/Transportation buildings. Our review can pinpoint holes in your comprehensive regulated waste management program and provide assistance in all compliance issues.

Mercury Spills

arch environmental group is the only 1-source clean-up, monitoring and transportation firms in the State of Michigan for handling your mercury spills. Whether you have several thermometers or a large release, we are ready to respond.
